

OPTA-TECH FIBER OPTIC ILLUMINATOR

OPTA-TECH Fiber Optic Illuminator

The OPTA-TECH light source can be used with microscopes of all known brands for reflected light observations. High power and built-in cooling system help to provide the user with cold, high-intensity light. The fiber optics can be bent into a shape that helps to best illuminate the chosen portion of the specimen.

Technical parameters*

Fiber optic type	Twin, goose neck type. The fiber optics are finished with collectors that can focus or diffuse the light
Fiber optic length	2 x 550mm
Power source	21V / 230V with built-in transformer
Light source	150W/21V halogen light source
Light source cooling	Built-in fan
Optional accessories	Fiber optic with ring illuminator, filter slot, filters, polarizing set, different length fiber optics.

** Due to constant technological progress, the parameters provided above are purely informational in nature, depict an example configuration and are liable to change*
